

PUBLIC LECTURES

EMMEΦ

ΦEMME

ΦAME

Together with EMMEPH and the UU Gender Programme, the University College Utrecht (UCU) invites you to a series of public lectures given by prominent female scientists in the Netherlands in the frame of a new interdepartmental Summer Course on **Gender, Science and Technology**.

The lectures are free of charge and no reservation is required.

You are all warmly welcome!

May 29th (Friday)

Prof. Dr. Petra Rudolf

Female scientists – a historic perspective

Petra on her own work – Molecular Motors and Switches at Surfaces

June 1st (Monday)

Prof. Dr. Cristiane Morais Smith

Emmy Noether: the most important woman in the history of mathematics

Cristiane on her own work: Graphene: the good, the bad, and the beauty

June 8th (Monday)

Prof. Dr. Marjolein Dijkstra

Marie Curie: the first woman to win two Noble Prizes in Chemistry and Physics

Marjolein on her own work: A computer game with colloids

June 15th (Monday)

Dr. Anna von der Heydt

Sofia Kowalewskaja – princess of science

Anna on her own work: Fascinating fluids – from turbulent flows to climate

June 22nd (Monday)
